

WHERE CAN YOU DISPOSE OF YOUR WASTE?

Waste separation is important to the municipality of Bergen. This is because everything except residual waste can be used again. To promote waste separation, we work with variable expenses: we pay per time that we have the gray wheelie bin with residual waste emptied. This is why we ask you to separate food and garden waste, PMD (plastic, tin/metal and drink cartons), paper waste and cardboard, glass, and nappies.

Which wheelie bin is used for what?

FOOD AND GARDEN WASTE GOES IN THE FOOD AND GARDEN WASTE BIN

Food waste, leftover fish and meat, coffee and coffee filters, tea bags, flowers, plants, small garden waste.

PMD (PLASTIC, TIN/METAL AND DRINK CARTONS)

Drink cartons, tin cans, tubes, aluminium foil.

RESIDUAL WASTE

Everything that is left over after separation, is your residual waste.

Where can you take your waste?

A Parking space (Sportlaan 9)
pmd | glass | paper waste

B Recycling centre
(Pieter Schotsmanstraat 10)
pmd | glass | paper waste

C Small recycling centre (location
Zeeweg near Zuiderduin hotel)
pmd | glass | paper waste | nappies
